

INTRODUCING THE **NEW** **ULTRASPEC®** SERIES **WINE COOLERS**

Store your bold reds and crisp whites at the perfect temperatures!

Victory's NEW **ULTRASPEC® Series Wine Coolers** are designed to create the perfect environment for storing fine wines at ideal temperatures. Equipped with seven full extension wine racks and one stationary rack, the Victory Wine Cooler displays 10 bottles of wine per shelf, with a maximum capacity of 80 bottles in one exquisitely designed cabinet!

The distinctive rack design embraces the bottles at the perfect angle, creating the optimum storage environment. With LED lighting standard on all Victory Wine Coolers, your valuable wine collection is highly visible for maximum merchandising and easy viewing by valued patrons and sommeliers.

The new line offers one and two section models as well as one and two section dual temperature versions for perfect wine, every time!

Victory's exclusive V-TEMP™ control provides user friendly features such as:

- Flexible Temperature Controls range operates from 40°F - 60°F degrees
- SUPERCOOL Mode
- Energy Savings Mode
- **One Touch Manual Defrost**
- Manager's Lockout Feature

In addition, up to 9 HACCP alarms are automatically stored in memory. Standard Alarms include:

- Power Failure
- Door Open
- Hi-Temp/Low Temp
- Clean Condenser
- Compressor Protection
